

**SUPERFUND SITE STRATEGY RECOMMENDATION (SSSR)**

**REGION 6**

Site Name: US Navy McGreggor Naval Weapons Site Number: TX 9170024708  
~~TX4570090007~~

Alias Site Name(s): \_\_\_\_\_

Address: 101 Johnson Drive

City/County or Parish/State/Zip: McGreggor/unknown/TX/76657

**RECOMMENDATION:**

- ☐ 1. No further remedial action planned under Superfund.
- ☒ 2. Further pre-remedial investigative action needed under Superfund.

PA \_\_\_\_\_ Priority: High \_\_\_\_\_ Low X  
 SSI \_\_\_\_\_  
 LSI \_\_\_\_\_  
 Other PREscore  
 To be performed by ARCS

- ☐ 3. Action may be appropriate under other authority: RCRA \_\_\_\_\_  
 NPDES \_\_\_\_\_ SPCC \_\_\_\_\_ TSCA \_\_\_\_\_ UIC \_\_\_\_\_ SMCRA \_\_\_\_\_  
 State \_\_\_\_\_ Other \_\_\_\_\_

**Discussion:** A Confirmation Study and Evaluation of Remedial Alternatives Report dated July 1985 was reviewed for this facility. The facility has been in operation since 1942.

Soil and ground water contamination had occurred primarily from pesticides such as DDT, toxaphene, and benzene hexachloride (BHC).

Remedial action including the removal of soil, the draining and filling of two impoundments and the surveillance of monitoring wells has occurred on site.

To comprehensively evaluate the status of the facility, a HRS Prescore should be performed following the current EPA guidelines. The Prescore should identify the data gaps present and those areas of the site needing further evaluation, if necessary.
